

HAVE YOU EVER WANTED TO LEARN MINDFULNESS?

Curious how just paying attention to the breath can alter your mood, change your health in positive ways, and lower your symptoms of depression, panic, and anxiety?

It all begins with breath.

There are many ways to be mindful.

Join us in a safe setting with other like-minded individuals who just like you wish to explore mindfulness in a non-judgmental and supportive environment.

Learn to relax in a pinch, minimize mind-chatter and negative thought patterns. Have fun and volunteer to lead a mindful moment.

CLASSES ARE ONLINE
